

## CUTTING-EDGE TECHNOLOGY

CASE MANAGEMENT  
ON THE CLOUD

EFFECTIVE  
MOBILITY

DYNAMIC PROCESS  
MANAGEMENT

PERSONALIZED  
REPORTING TOOLS

## KEY FEATURES

- Integrates with State Disbursement Unit (SDU)
- Interstate Case Transfer & Monitoring
- Intelligent Dashboards and Predictive Analytics
- Unified Case Intake
- Role and User Management
- Reduce Time and Complexity
- Easy Implementation and Training
- Integrated Optical Character Recognition (OCR)
- Modular and Customizable Architecture
- Reduced Training Curve
- Data Warehousing and Interoperability
- Low Cost and Effort of Implementation
- 24x7 Customer Service Help Line

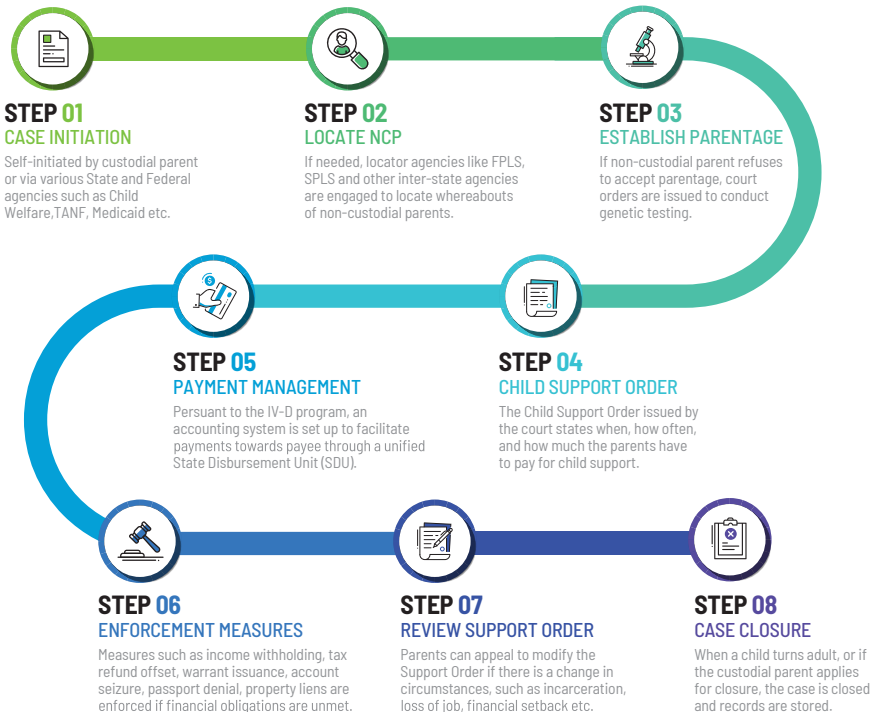

# Realizing the Child Support Vision

CITI's Child Support Solution - **Align**, has been designed to empower agencies and governments align parents towards a common goal—the well-being of their children.

## BETTER OUTCOMES FOR ALL

Align is powered by **Empower** - CITI's robust and versatile platform for Health and Human Services, Align's automated and streamlined features can help you reduce cost, improve productivity, deliver timely and secure payments to custodial parents, and help caseworkers focus on delivering a hassle-free child support experience.

### Child Support Life-cycle

## WHY ALIGN

Changing social dynamics, rising incarceration rates, parental alienation due to rising child support debts, and a volatile economy make it difficult to maintain a steady stream of payments.

Using new technologies and innovation, Align fosters an approach of *"Involvement"* rather than *"Enforcement"* to help agencies persuade parents towards a shared mission, while ensuring continuity of financial support. Align addresses every possible child support scenario, keeps costs down, and helps deliver the Child Support mission: That every child receives the support, participation, and love of both parents.

## ALIGN BENEFITS

Align manages all child support scenarios and assists agencies to provide benefits to:

**Divorced, Separated, or Unmarried Couples** who are bound by law to share the costs.

**Teenage Mothers** whose fathers are usually non-custodial, and unable to pay child support.

**Disabled Adult Children** who are deemed incapable of earning a livelihood.

**Step-Parents** who have legally adopted or are willing to adopt the child.

**Legal Guardians** who are financially unable to provide for the child.

## VERSATILITY REDEFINED

- Align provides highest security and compliance with state and federal regulatory laws.
- It offers convenience by allowing scheduled or unscheduled, electronic and manual transactions, anywhere in the U.S.
- It allows easy reviews and adjustments of Support Orders.
- Align extends complete transparency and information sharing with governing authorities such as TANF and the State Treasury.

## ALIGN ADVANTAGES

**Sustained alignment** and participation in co-parenting activities

**Reliable, secure, and timely payments** through State Disbursement Unit (SDU)

Integration engine for **effective information sharing** with state and federal agencies

**Faster and accurate decision-making** for enforcement and modifying child support orders

**Improved communication** between caseworker, families, and agencies

Data and predictive analytics for applying **appropriate enforcement and remedial measures**

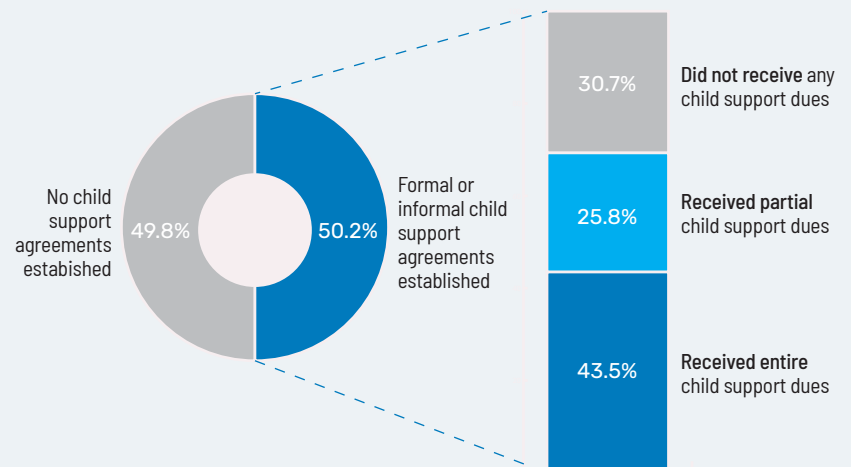

**Enhanced service experience** for caseworkers and families

Automated workflow processes for **optimized service delivery**

## U.S. Child Support Agreements vis-a-vis Payments

Out of 13.6 million custodial single parents, 9.4 million received no dues at all.
